

Feb - Jun 2020 COMMUNITY CLIMATE ACTION SERIES

Hosted by
Newlands Parents for Climate Action and
Neighbours United for Climate Action (NUCA)

@ Newlands Neighbourhood House
20 Murray Rd, Coburg North / 03 8528 2332

These varied workshop sessions are tied together by themes of empowering the community and providing hope through action in a time of ecological crisis and climate emergency.

All sessions are on Saturday afternoons and include time to connect with others. Children are welcome. Afternoon tea provided. Gold coin donation.

 @CommunityClimateAction

with former ABC correspondent Sonia Randhawa**

Jun 27th 2-4pm

**How to have Effective Conversations
with Climate For Change**

2020 COMMUNITY CLIMATE ACTION SERIES

TERM 1

@ Newlands Neighbourhood House
20 Murray Rd, Coburg North

Feb 8th 2-4pm The Launch of the 2020 Season

Come and join us to open up the new season of the Community Climate Action Series. This will be a social affair, with time and space for us all to chat, kids to play, and food to enjoy. If you can, bring a dish to share for afternoon tea - that's just optional, though! With Darebin Mayor Susan Rennie & Moreland Councillor Jess Dorney

Feb 22nd 2-4 pm Meet the School Strikers - SS4C

Meet Romy and Cindy from the SS4C movement! Hear about what it's like to be a School Striker - how they're managing all the demands of school, activism and the rest of life; what they're aiming for; and how we, the community, can support them. The young people in the SS4C movement are far more impressive and inspirational than most of us were at their age, so come along to get to know them and get behind them!

(NB change of time so people can head into the Climate Crisis rally afterwards as part of a contingent, if you wish to join in)

Mar 14th 2-4 pm Mending Clothes

Dig out that pile of clothes collecting in the back of your wardrobe that need mending and bring them along to this awesome workshop! Zana, local maker and small business owner of Bobby Stitch (homemade, ethical, sustainable goodies for mummies and little ones - <http://bobbystitch.com.au/>) and a group of local creatives, can help you with basic darning, embroidery to cover holes, needle felting for woollens and machine darning denim. Why send perfectly good clothes to landfill when you can mend them with the help of these clever people?

Mar 28th 2-4pm Citizens' Assemblies - what are they and how do they work?

What is a "Citizens' Assembly" and how does it work? What would it look like here and how would our system change if we had one? Extinction Rebellion (XR) have three key demands the world over, and installing Citizens' Assemblies (CA) alongside parliaments is their third one. Did you know that cities and countries around the world have had citizens' assemblies? Find out more at this session, presented by XR member and CA enthusiast, Sonia Randhawa.
